

PERFORMANCE IS EVERYTHING

A world of heat transfer solutions.

At API Heat Transfer, everyone works toward the same goal: to be the leading provider of heat transfer solutions, capable of meeting all of our customers' needs through one global source. And it's our dedication to performance in four key areas that sets us apart.

IRON RIDGE, WISCONSIN

FRANKLIN, WISCONSIN

RACINE, WISCONSIN

BUFFALO, NEW YORK

ARCADE, NEW YORK

Global presence.

API Heat Transfer has a global network of sales, engineering, and manufacturing capabilities to provide our customers with industry-leading heat transfer solutions. Our global presence allows us to build products where it makes the most business sense and provide outstanding customer service on a local basis.

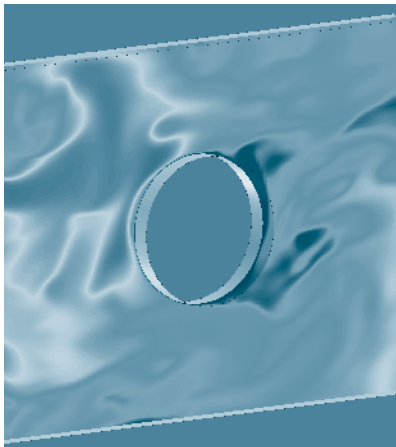

Market expertise.

Our know-how allows us to work with customers on an engineer-to-engineer level. We understand your market-specific applications and have the experience necessary to recommend the right heat transfer solution for your individual needs.

Industries we serve:

- Compressor
- Engine cooling
- Fluid power
- Food and beverage
- General industrial
- Oil and gas
- Power generation
- Process industries

Product development.

Our understanding of heat transfer technologies allows us to innovate and continuously improve our offerings. At our modernized testing facilities, we're able to validate our designs prior to application, ensuring product performance in the field – where it counts.

- State-of-the-art product test lab and data acquisition system
- Commercial and proprietary software to ensure accuracy and improve productivity
- Fluid flow analysis using Computational Fluid Dynamics
- Thermal, metallurgical, and materials engineering

BRETTEN, GERMANY

SUZHOU, CHINA (2)

Comprehensive solutions.

At API Heat Transfer, we analyze your application and design to your specifications to create a complete customer solution. With multiple technologies, premium brands, and a broad product portfolio, we're able to customize our heat exchanger offering to meet each customer's individual needs. In addition, we offer a complete portfolio of standard products available from TTP, an API Heat Transfer company, and sold through a global network of distribution partners.

HEAT TRANSFER BRANDS

Airtech

Industrial air cooled heat exchangers

Covrad

Engine cooling systems

Basco

Shell and tube heat exchangers

Schmidt-Bretten

Plate heat exchangers and thermal systems

MARKET APPLICATIONS

- Air cooled compressors
- Dryers
- Mobile equipment
- On-engine cooling
- Oil and gas
- Water cooled compressors
- Chemical and petrochemical
- Power plants
- Refrigeration
- Power sports
- Electric power generation
- Rail
- Turbines
- Air separation
- Sanitary
- HVAC

Distributed products

- Fluid power
- Custom engine cooling
- Agriculture
- Material handling
- Construction

Heat transfer performance to the highest degree.

We have a heritage of more than 140 years designing and delivering world-class heat transfer products for nearly every industry application. With a global network of manufacturing facilities and regional sales offices throughout the world, we are ready to serve. Our market-focused approach enables us to work closely with you during every step of the process. The result? Value-added, custom-engineered solutions that help ensure your success.

There's heat transfer. And then there's API Heat Transfer.

"What differentiates API Heat Transfer is the knowledge of the product – of our product and their product. When you want a heat exchanger, you go to API Heat Transfer."

– Buyer, Industrial Market

See how our performance can improve yours.
